Deputy Chief, Finance Division

25X1A [REDACTED] reclaim for shipment of household effects

1. I have discussed the case in hand with [REDACTED] OGC, Extension 621, in an effort to develop to whom the OGC opinion was addressed, its date and who signed it. I have been unsuccessful in developing any information from this source.

25X1A 2. I talked with [REDACTED] WH/BF, Extension 3912, in an attempt to determine whether the original claim was rejected at administrative level or whether it was disallowed by Finance or Fiscal Division. He is checking his files but is of the opinion that he may have to go to Archives to resolve this point.

25X1A 3. [REDACTED] advised that it was his understanding that
25X1A when [REDACTED] went out as Chief of Station, during his discussion with DCI he was asked if any personal problems existed. At this time the disallowed claim was brought up and the DCI asked General Counsel to personally look into it.

25X1A 4. I talked to [REDACTED] regarding this point and he indicated that he discussed the question with General Counsel prior to his leaving for his overseas post. Indications are, due to the manner in which the General Counsel decision has been sterilized that

25X1A it was written after [REDACTED] went overseas and forwarded to him,

~~CONFIDENTIAL~~

presumably by WH Division. [REDACTED] also informed me that the claim was submitted to Finance Division and apparently returned to him on Routing Slip 63313 dated 7 January 1952 signed by [REDACTED]

[REDACTED] was quite vague about what disposition was actually made of the original claim although he did locate the routing slip referred to above.

5. [REDACTED] cannot remember any of the particulars but assumes that he returned the disallowed claim to [REDACTED] as an attachment to Routing Slip 63313.

6. [REDACTED] is attempting to determine if the disallowed original claim was placed in [REDACTED] official personnel folder. He will advise me of his determination in this regard.
